**Course Credits:** 3.0

### Overview

---

This is a studio course designed to introduce students to the techniques and practices of artistic self-direction. Traditionally visual communication designers are given a brief that outlines a problem in need of a solution. When faced with no limits, as when a client tells the designer that he/she can do anything he/she wants, designers may be stymied. What we tend to ignore is that limitations often enhance creative thinking rather than stifle it. Without limitations, we wonder where to begin. In this course, students will be responsible for defining their own objectives, providing their own text, setting stylistic limitations, and completing complex self-defined projects.

---

### Objectives

- 
- ❑ Continue to develop and use a vocabulary of art and design.
  - ❑ Continue to develop best practices in design using text and images.
  - ❑ Write original text which will be the basis of the project.
  - ❑ Think deeply about the relationship of the audience, communication goals, and design.
  - ❑ Explore in greater depth the media you have used in GD I-III and the Digital Art & Design or Digital Media Design (New Media Studies Majors) electives.
  - ❑ Research professional production options and professionally produce your Senior Capstone using industry best practices.
  - ❑ Take your project to a highly creative and innovative solution by generating many ideas for each aspect of the project.
  - ❑ Create original imagery for your project. You are required to document the sources of your imagery.
  - ❑ Create a capstone design process document (visual design brief) that you will use for research, planning, and communicating your design/digital art capstone process in preparation for a culminating public installation in the senior art exhibition.
  - ❑ Speed up workflow by using design and image-creation software best practices, including

master pages or artboards,; templates; guides and grids; paragraph, character, and object styles; and keyboard shortcuts.

- Create a professional web and printed portfolio of your best work during your college career.
- Update your resume, business card, and letterhead.
- Write a basic free-lance contract for at least one area of your career interest. (Use the contracts section of your textbook and additional research.)
- Think deeply about your learning experience at Eastern. Write an artist statement reflective of your learning experiences, your capstone project, and your career goals. During the semester, use your required textbook to clarify your career direction and to write your artist statement.

## Assistance at the Writing Center

The Eastern Writing Center, located in the ASC and staffed by trained peer tutors, is available to help all students with their writing. The Writing Center supports the liberal-arts mission of Eastern by helping students with their writing from any class, at any stage, from brainstorming and drafting to revision to proofreading and editing. We help students do their own work and do it more comfortably and confidently. Any student can and should use the Writing Center. The process of talking with readers about writing and getting feedback on student writing is something all writers do and can benefit from. Students can either drop into the Center or make an appointment by going to the "Useful Links" column on the Current Students webpage and selecting "GradesFirst" (<http://www.easternct.edu/index/current-students/>). Students are asked to bring copies of any assignment sheets to the Writing Center, so tutors know what is expected of the assignment. Assistance with Academic Advising and Subject Tutoring at the Academic Service Center Students are encouraged to use the support services offered by the Academic Services Center (ASC) located on the ground floor of the Library. Advising Services and tutoring in math, writing, and other subjects are available. The ASC also offers assistance with study techniques, time management, and "Eastern in 4" graduation planning.
